## INTERNATIONAL CONFERENCE ON COMPUTATIONAL SCIENCES AND SUSTAINABLE TECHNOLOGIES

(ICCSST-2025)

5 - 6 June 2025

The International Conference on Computational Sciences and Sustainable Technologies aims to provide opportunities for collaboration and reflection, enhancing the ability to apply Information Technology for sustainability. This conference provides a unique forum for academicians, researchers, technocrats, and industry experts to exchange ideas and experiences on research problems related to recent advancements in computer science. The papers presented at the conference will be compiled and published as a book within a series managed by Springer.

### CALL FOR PAPERS

Topics of interest for submission include, but are not limited to:

- Artificial Intelligence and Robotics
- Blockchain Technology
- Cloud Computing and Virtualisation
- Cyber Security
- Data Science
- E-Commerce
- Image and Video Processing
- Pandemic Preparedness and Digital Technology
- Pattern Recognition and Classification
- Natural Language Processing
- Software Engineering
- Internet of Things (IoT)
- AR/VR
- Wireless Communications, etc.
